

In support of the High Speed Rail Line from Saint Paul, Minnesota to Chicago, Illinois:

The Midway Chamber of Commerce agrees to support and participate in joint advocacy efforts on behalf of the high speed rail line from Saint Paul, Minnesota to Chicago, Illinois via Madison, and Milwaukee, Wisconsin.

As an organization, we see the long-term economic benefits of this project to our region. We strongly urge elected leaders in all three states and Washington D.C. to pursue federal and local funding to make this project reality. High speed rail creates immediate jobs and employment down the road, creates improvements in freight shipping, increases the movement of people for work and leisure and propels our economy into the 21st century.

Approved by the Midway Chamber Board of Directors, Friday, June 19th
